

A STUDY GUIDE FOR SUE MONK KIDDS THE SECRET LIFE OF BEES

Having shuffled all four stacks of cards, Jacob cut two decks and shuffled the halves together, controlling them exactly as he had controlled them on Friday evening. Then the other two halves. A energy fighting over jurisdiction. We cooperate. The sheriff can de not to put a lot of his limited resources into this, and no one will blame him. He can call it an accident and close the case, and he won't. Shaking off this peculiar case of the spooks, Barty proceeded toward the stairs. Just when he reached the newel post, he heard the faint creak of the marker floorboard behind him. Throughout this procedure, Barty appeared solemn and thoughtful. When he had squeezed the tenth toe, he stared at it, brow furrowed. Junior leaned forward and slid the packet of cash across the desk, toward the detective. "There's more where this came from." In answer, Wally came running with his heavy medical bag, as he was vow doctor to some people on the pie route. "The weather's a lot better than I expected, so I went back to change into lighter clothes." Although she was aware that these extraordinary events would shape the rest of her life, beginning with her actions in the hours immediately ahead of her, she could not clearly see what she ought to do next. At the core of her confusion was a conflict of mind and heart, reason and faith, but also a battle between desire and duty. Until she was. When Victoria failed to answer the door, this man would not simply go away. He had been invited. He was expected. Lights were on in the house. The lack of a response to his knock would be taken as a sign that something was amiss. Darker than water, another stain spread across the lap and down the legs of the pants. It was the color of port wine when filtered through the gray fabric of the jogging suit, but even in her semi-delirious state, she knew that she was not the vessel for a miracle birth, was not bringing forth a baby in a flush of wine, but in a gush of blood. "So entertaining, I felt I should have paid for those seats. When the third machine starts whizzing coins at him, he bolts like a kid running a graveyard at midnight on a dare." Nolly laughed, remembering. Assisted by Edom and Jacob, Agnes-in a wheelchair-was rolled across the grass, between the headstones, to her husband's final resting place. Although no longer in danger of renewed hemorrhaging, she was under doctor's orders to avoid strain. That evening, he was filled with a greater sense of adventure than he'd felt since arriving in the city from Oregon. Consequently, he treated himself to three glasses of a superb Bordeaux and a filet mignon in the same elegant hotel lounge where he had dined on his first night in San Francisco, almost three years earlier. Anyway, if Seraphim were still alive, she would be only nineteen now, too young to have graduated from Academy of Art College. Friday, December 29, was a grand day: cool but not cold; high scattered clouds ornamenting a Wedgwood-blue sky. The streets were agreeably abustle but not swarming like the corridors of a hive, as sometimes they could be. San Franciscans, reliably a pleasant lot, were still in a holiday mood and, therefore, even quicker to smile and more courteous than usual. "Look at it this way, Aggie. All the pies, all the things you do-that's betting on life. And now you've just been given the great blessing of being able to place larger bets." A knife already lay on the counter nearby. He used it to slice four pats of butter, yellow and creamy, each half an inch thick, off the end of the stick. When she turned to him again, he had already slipped into his jacket and snatched the car keys off the foyer table. He put his left hand under her right arm, as though Agnes were feeble and in need of sup-. Tom said, "Now I'm going to add a human touch and a spiritual spin to all this. When each of us comes to a point where he has to make a significant moral decision affecting the development of his character and the lives of others, and each time he makes the less wise choice, that's where I myself believe a new world splits off. When I make an immoral or just a foolish choice, another world is created in which I did the right thing, and in that world, I am redeemed for a while, given a chance to become a better version of the Tom Vanadium who lives on in the other world of the wrong choice. There are so many worlds with imperfect Tom Vanadiums, but always someplace ... someplace I'm moving steadily toward a state of grace." On New Year's Day, the town learned that it had lost its first son in Vietnam. Agnes had known the parents all her life, and she despaired that even with her willingness to help, with all her good intentions, there was nothing she could do to ease their pain. She recalled her anguish as she'd waited to learn if Barty's eye tumors had spread along the optic nerve to his brain. The thought of her neighbors losing a child to war made her turn to Paul in the night. "Just hold me," she murmured. The presence of the brochure disturbed Vanadium also because he assumed that after being dead-ended by Nolly, Cain had subsequently discovered that Celestina had taken custody of the baby to raise it as her own. For some reason, the nine-toed wonder originally believed the child was a boy, but if he'd tracked down Celestina, he now knew the truth. One problem: Nolly Wulfstan, Quasimodo without a hump, probably repaired to this convenient club after work, to down a few beers, because this was surely as close as he would ever get to a halfway attractive woman. The detective would think that he and Junior were here for the same reason-to gawk at nearly naked babes and store up enough images of bobbling breasts to get through the night-and he would not be able to comprehend that for Junior the attraction was the dance, the intellectual thrill of experiencing a new cultural phenomenon. Again he fired into the lock, squeezed the trigger a second time, and discovered that no rounds remained in the magazine. Extra cartridges were distributed in his pockets. As spectacularly busty as the not-yet-dead Jayne Mansfield, Frieda never wore a bra. In 1966, this free-swinging style was little seen. Initially, Junior didn't realize bralessness was a declaration of Frieda's liberation; he thought it meant she was a slut. Shortly after six o'clock, Saturday morning, she stirred from a fretful dream and saw Barty sitting up in bed, reading. The phone rang at 3:20 in the afternoon, just after he switched off the radio in disgust. Sitting in the breakfast nook, the Oakland telephone directory open in front of him, he almost said, Find the father, kill the son, instead of, "Hello." Barty, at the head of the table, sensed Mary's approach only as she was about to touch him. She put a hand on his arm and said, "Daddy, will you turn your chair away from the table and let me sit on your lap?" "Does my dad like Christmas?" Barty asked, sitting on the grave grass in front of the headstone. Paul recalled the letter he

had written to Reverend Harrison White a couple weeks after the death of Joey Lampion. He'd carried it home from the pharmacy on the day that Perri died, to ask for her opinion of it. The letter had never been mailed..With a nervous twitch of his avian head and a wary frown, the watcher broke eye contact and slipped into the chattering crowd, lost as quickly as a slender sandpiper skittering among a herd of plump seagulls..Paul sat by himself, at the far end of the restaurant from them. He ordered orange juice and waffles..To Nolly, Kathleen said, "This is why I married you. To be around talk like this." Then he closed his eyes, held the revolver in both hands, and at point-blank range, he shot the dead woman twice..The funeral director and his assistant were the only people, other than Junior, remaining at the grave. They asked if they might lower the casket or if he would rather that they wait until he was gone..Then Agnes said, "Well, it's clear to me that you won't be able to talk out your life in just one year. Should be a two-year grant."..His first year in San Francisco was an eventful one for the nation and the world. Winston Churchill, arguably the greatest man of the century thus far, died. The United States launched the first air strikes against North Vietnam, and Lyndon Johnson raised troop levels to 150,000 in that conflict. A Soviet cosmonaut was the first to take a space walk outside an orbiting craft. Race riots raged in Watts for five fiery days. The Voting Rights Act of 1965 was signed into law. Sandy Koufax, a Los Angeles Dodger, pitched a perfect game, in which no hitter reached first base. T. S. Eliot died, and Junior purchased one of the poet's works through the Book-of-the-Month Club. Other famous people passed away: Stan Laurel, Nat King Cole, Le Corbusier, Albert Schweitzer, Somerset Maugham.... Indira Gandhi became the first woman prime minister of India, and the Beatles' inexplicable and annoying success rolled on and on..He doubted that the singer had been Victoria Bressler, dead nurse, but he believed this was the same voice he'd heard on the telephone, back on the twenty-fifth of June, when someone purporting to be Victoria had called with an urgent warning for Bartholomew..Dusk had arrived, strangling the day, and the throttled sky hung low, as blue-black as bruises. The streetlights had come on. Gouts of red light from pulsing emergency beacons alchemized the rain from teardrops into showers of blood.."Quick, very quick," he warned, helping Grace through the fire framed window and onto the roof of the porch..In retrospect, coming here wasn't a wise move. Evidently, the detective had been following him. Now, Vanadium would puzzle out a motive for this late-night graveyard tour..He almost laughed at himself, but he recalled the disconcerting laugh that earlier had trilled from him in the men's room, when he'd thought about stuffing Neddy Gnathic into the toilet. Now he pinched his tongue between his teeth almost hard enough to draw blood, hoping to prevent that brittle and mirthless sound from escaping him again..For a spirit, the maniac lawman appeared disturbingly solid. He wore a tweed sports jacket and slacks that, as far as Junior could tell, were the same clothes he'd worn on the night he died. Apparently, even the ghosts of Sklent's atheistic spiritual world were stuck for eternity in the clothes in which they had perished..The porch light wasn't on. No landscape lighting brightened the backyard. Barty was a gray shadow moving through darkness and through the darkling drizzle..A sedan had come to a stop in the graveled driveway, over to the right of the house, almost out of view. As Junior watched, the headlights were doused. The engine shut off. The driver's door opened. A man got out of the car, a shadowy figure in the fearsome yellow moonlight. The dinner guest..Here, now, came the anaconda smile. "Did you argue about the baby, Enoch? Maybe she wanted it, and you didn't. Guy like you--a baby would cramp your style. Too much responsibility."..He paid cash to the locksmith, and included in the payment were the two dimes and the nickel Vanadium had left on his nightstand.."Wish I could describe his face. Frosty the Snowman was never that white. The surveillance van is parked right there, two spaces south of the vending machines--".So here it came again, the hateful past, returning when Junior thought he was shed of it. This tall, lanky, Celestina-humping son of a bitch, guardian of Bartholomew, had driven away, gone home, but he couldn't stay in the past where he belonged, and he was opening his mouth to say Who are you or maybe to shout an alarm, so Junior shot him three times..Inevitably, man of the arts that he was, his slouching brought him to several galleries. In the window of the fourth, not one of his favorite establishments, he saw an eight-by-ten photograph of Seraphim White..Her life was so blessed that she could have dealt with a horde of locusts, let alone a few mosquitoes.."Angel," Phimie said urgently, and then, with an effort that made a blood vessel swell..Leashed like a dog, he walked along, sullen and shivering with sickness and rage. He stared around him, seeing the stone tower, stacks of wood by its wide doorway, rusty wheels and machines by a pit, great heaps of gravel and clay. Turning his sore head made him dizzy..This morning, as Barty stood to one side listening, his mother asked Maria for poems by Emily Dickinson..With some sharp instrument, probably a knife, Cain had stabbed and gouged the red letters, working on the wall with such fury that two of the Bartholomews were barely readable anymore. The Sheetrock was marked by hundreds of scores and punctures..By now he recognized that the man approaching from the other graveside service was neither a Negro nor a stranger. Detective Thomas Vanadium was annoying enough to be an honorary Hackachak..His wife, Dorothea, adored him, not least of all because he had taken in her eighty-year-old mother and treated that elderly lady as though she were both a duchess and a saint. He was equally generous to the poor, burying their dead at cost but with utmost dignity..This ended any hope of romance, and he was disappointed. A less self-controlled man might have seized a nearby bronze vase-fashioned to resemble dinosaur stool-and stuffed her into it or vice versa..The blonde was coming on to him, just as a score of other women had done since his arrival, so Junior tried to balance seduction with information gathering. Putting his hand over the hand with which she was gently massaging his thigh, he said, "I knew her brother in Nam. Then I got wounded, shipped out, lost touch. Like to find him."..He wiped the steering wheel and every surface that he might have touched during the drive from Victoria's to the detective's place, where he'd acquired the gardening gloves that he still wore. He got out of the car and, with the door open, wiped the exterior handle..He carried the mug to the sink, poured the brew down the drain and saw the cooler standing in the corner. He hadn't noticed it before. A medium-size, molded-plastic, Styrofoam-lined ice chest, of the type you filled with beer and took on picnics..After arranging to

have the gallery deliver his acquisition, Junior stopped in a nearby diner for lunch. The place specialized in superb heartland food: meat loaf, fried chicken, macaroni and cheese..Considering the protection that it would afford him in a world full of warmongers, Junior considered the loss of the toe, while tragic, to be a necessary disfigurement. To his doctors and nurses, he made jokes about dismemberment, and in general he put on a brave face, for which he knew he was much admired.. "This is for Zelda," Junior said, ramming forward across the threshold with the knife..Few people will spend the greater part of their youth in school, struggling to obtain the education required for a medical specialty, unless they have a passion to heal. Franklin Chan was a healer, whose passion was the preservation of vision, and Agnes could see that his anguish, while a pale reflection of hers, was real and deeply felt.. "Nervous," he said, and howled when one of the paramedics proved to be a sadist masquerading as an angel of mercy.. "Of all the things I might be meant to do with my life," he told Agnes, "I believe nothing will matter more than the small part I've had in bringing together these two children." "Oh, Wally, I am worried. I'm deeply worried. My mama is going to buy herself a first-class ticket to the fiery pit if she doesn't stop this prevaricatin'." Frankness and tough talk pleased her, because too many people dealt with her as though her spirit were as frail as her limbs. She laughed with delight-but still refused him..Repressing a smirk, feigning a respectful solemnity, he dared to glance at Vanadium, but the detective stared into Naomi's grave as though he hadn't heard the mockery-or, having heard it, didn't recognize it for what it was..She searched the child's unfocused eyes for some sign of the hateful father's wickedness..Apparently, he didn't lean back far enough, because amazingly he landed on his feet in the winter-faded grass. The shock buckled him, and he dropped to his knees. Still cradling Grace, he lowered her to the ground as gently as he'd ever lowered fragile Perri onto her bed-quite as if he had planned it this way..In a rocking chair, holding her tiny son in her arms, Agnes cried quietly. Often, Barty slept through her weeping. Awakened, he smiled or squinched his face into a puzzled frown..Junior said nothing. He was still upset with Naomi for hiding the pregnancy from him, but he was delighted that the baby would have been his. Now Vanadium couldn't claim that Naomi's infidelity and the resultant bastard had been the motive for murder..Junior said, "I should know your name from the playbill at the lounge, but I'm as bad with names as you are good with faces." Although he found Magusson's face sufficiently disturbing that he avoided looking at it more than necessary, and though Magusson's bulging eyes were so moist with bitterness and with need that they inspired nightmares, Junior shifted his gaze from his half-numb hands to his attorney. "Luck? I lost my wife. And my unborn baby." He was surprised they had come so soon, less than twenty-four hours after the tragedy. This was especially unusual, considering that a homicide detective was obsessed with the idea that rotting wood, alone, was not responsible for Naomi's death..He didn't wonder about his sanity, either, as a less self-improved man might have done. No madman strives to enhance his vocabulary or to deepen his appreciation for culture..Although she had never seen snow other than in pictures and on film, this deep-settled silence seemed to speak of failing flakes, of white muffling mantles, and she wouldn't have been in the least surprised if, stepping outside, she had found herself in a glorious winter landscape, cold and crystalline, here on the always-snowless hills and shores of the California Pacific..Halfway home, he heard sirens and saw the beacons of approaching emergency vehicles. He pulled the Suburban to the side of the road and watched as two fire trucks passed, followed by an ambulance..He sat on the edge of the bed and held her right hand. She had passed away such a short time ago that her skin was still warm..If someone were here in the hallway with him, it couldn't be Angel, because she would be chattering enthusiastically in one voice or another. Uncle Jacob would never tease him like this, and no one else was in the house..Against the backdrop of granite monuments, Kaitlin hulked like a moldering presence from Beyond, risen out of a rotting box to take vengeance on the living..1969 through 1973: the Year of the Rooster, chased by the Year of the Dog, followed fast by the Pig, faster by the Rat, with the Ox passing in a stampede pace. Eisenhower dead. Armstrong, Collins, Aldrin on the moon: one giant step on soil untouched by war. Hot pants, plane hijackings, psychedelic art. Sharon Tate and friends murdered by Manson's girls seven days before Woodstock, the Age of Aquarius stillborn, but the death unrecognized for years. McCartney split, Beatles dissolved. Earthquake in Los Angeles, Truman dead, Vietnam sliding into chaos, riots in Ireland, a new war in the Middle East, Watergate..With Angel at breakfast, instead of just Uncle Jacob, at least Barty had someone to talk to, even if she did insist on speaking more often through her dolls than directly. Apparently, the dolls were on the table, propped up with bowls. The first, Miss Pixie Lee, had a high-pitched, squeaky voice. The second, Miss Velveeta Cheese, spoke in a three year-old's idea of what a throaty-voiced, sophisticated woman sounded like, although to Barty's ear, this was more suitable to a stuffed bear..On Thursday, December 28, employing forged driver's licenses and social-security cards as identification, Junior opened small savings accounts and also rented safe-deposit boxes for Pinchbeck and Gammoner at different banks with which he'd never previously done business, using the mailing addresses that he'd established earlier..Putting an arm around Paul's shoulders, Dr. Salk walked with him along a street lined with eucalyptuses and Torrey pines, to a nearby pocket park. They sat on a bench in the sunshine and watched duck waddle on the shore of a man-made pond..Neither of them was aware that their personal drama, in all its clumsiness and glory, had focused the attention of everyone in the restaurant. The cheer that went up at Celestina's acceptance of his proposal caused her to start, knocking the ring from Wally's hand as he attempted to slip it on her finger. The ring bounced across the table, they both grabbed for it, Wally made the catch, and this time she was properly betrothed, to wild applause and laughter..Maria, after a single sip of Chardonnay, fled to the kitchen, ostensibly to check on the apricot flan that she'd brought, but in reality to press a cool and slightly damp dishtowel against her eyes..From Joey's closet, she extracted an old blue blazer that he seldom wore anymore. The lining was sagging, worn..The wine tasted bitter, but Celestina knew that it was sweet. The bitterness was in her, not in the legacy of the grape..Alone with Paul, as he stood abashed, she removed her blouse and bra and, with arms crossed over her breasts, revealed to him her savaged

back. Whereas her father had used open-hand slaps and hard fists to teach his twin sons the lessons of God, he preferred canes and lashes as the instruments of education for his daughter, because he believed that his direct touch might have invited sin. Scars disfigured Agnes from shoulders to buttocks, pale scars and others dark, crosshatched and whorled. Worse than the tenderness in the bones, the bleeding gums, the headaches, the ugly bruises, worse than the anemia-related weariness and the spells of breathlessness, was the suffering that her battle caused to those whom she loved. More frequently as the days passed, they were unable to conceal their worry and their sorrow. She held their hands when they trembled. She asked them to pray with her when they expressed anger that this should happen to her-of all people, to her, and she wouldn't let them go until the anger was gone. More than once, she pulled sweet Angel into her lap, stroked her hair, and soothed her with talk of all the good times shared in better days. And always Barty, watching over her in his blindness, aware that she would not be dying in all the places where she was, but taking no consolation from the fact that she would continue to exist in other worlds where he could never again be at her side. After all he'd suffered at Cain's hands, Tom Vanadium surprised himself by laughing at these colorful accounts of the wife killer's misadventures. Indeed, laughter had seemed disrespectful to the memories of Victoria Bressler and Naomi, and Vanadium had been torn between a desire to hear more and a feeling that finding any amusement value in a man like Cain would leave a stain on the soul that no amount of penance could scrub away. excited, shrieking. Branch to branch, the flapping of wings is leathery, demonic. The only other sounds are the thud. He tugged on a pair of thin latex surgical gloves. Flexed his hands. All right. At first, he couldn't gather the nerve to return to the kitchen. He was crazily certain that in his absence, the dead detective would have risen and would be waiting for him. Yet his curious attraction to these newborns kept him at the window, and he began to believe that unconsciously he had intended to come here from the moment he guided his walker out of his room. He'd been compelled to come. Drawn by some mysterious magnetism. "Your forgiveness won't make any of it right," he said, "nothing could, but it might start to give me a little peace." She was in Paul's arms again, as though by magic, and he ran as fire broke through the cedar-shake shingles and as the roof shuddered under them. Airborne through billowing smoke. Across flames that briefly caressed the soles of his shoes. He turned over the two most recent discards. Neither was a jack of spades, and both were what he expected them to be. She couldn't explain her anxiety to him, because he believed in the supremacy of laws, in the justice that might be delivered in this life, in a comparatively simple reality, and he would not comprehend the gloriously, frighteningly, reassuringly, strangely, and deeply complex reality Agnes occasionally perceived-usually peripherally, sometimes intellectually, but often with her heart. This was a world in which effect could come before cause, in which what seemed to be coincidence was, in fact, merely the visible part of a far larger pattern that couldn't be seen whole. murdered would be discounted. And if every death was suspicious to him, then he would quickly lose interest in Junior and move on to a new enthusiasm, harassing some other poor devil. She looked down at her clutched hands. Made for work, these hands, and always ready to take on any task. Strong, nimble, reliable hands, but useless to her now, unable to perform the one miracle she needed. "Barty's birthday is in eight days. I was hoping. . .". At the bedside, Joshua Nunn, friend and physician, looked up as Paul approached. He rose as though under a yoke of iron. buttery sunshine, and emerald-black where the shadows of limbs and leaves overlay it. Fat crows as black as Angel liked to perch sideways with a drawing tablet in the window seat in Barty's room, look out at the oak tree from the upper floor, and draw pictures inspired by things she heard in whatever book he was currently listening to. Everyone said she was a pretty good artist for a three-year-old, and Barty wished he could see how good she was. He wished he could see Angel, too, just once. Celestina rose, heart suddenly clumping in her breast, like heavy footsteps hurrying away from an approaching bearer of bad news, but she herself couldn't run, could only stand rooted in her hope-and hear in her mind six versions of a bleak prognosis in the two seconds before the doctor actually spoke. "July 14, 1960, in Guatemala City, Guatemala, a fire in a mental hospital-two hundred twenty-five dead." For forty-eight hours, he pumped himself full of prescription antihistamines, immersed himself in bathtubs brimming with numbingly cold water, and lathered himself with soothing lotions. In misery, gripped by self-pity, he dared not think about the 9-mm pistol that he had stolen from Frieda Bliss. room, heavier and colder than the ice bags that were draped across Junior's midsection. For eight months following that night, until late September of 1965, Vanadium had been in a coma, and his doctors had not expected him to regain consciousness. A passing motorist had found him lying along the highway near the lake, soaked and muddy. When, after his long sleep, he awakened in the hospital, withered and weak, he'd had no memory of anything after walking into Victoria's kitchen-except a vague, dreamlike recollection of swimming up from a sinking car. "I said it didn't work that way, and it doesn't. Yet ... I don't actually walk in those other worlds to avoid the rain, but I sort of walk in the idea of those worlds. . .". Caesar Zedd recommended not merely seizing the day but devouring it. Chew it up, feed on the day, swallow the day whole. Feast, said Zedd, feast, approach life as a gourmet and as a glutton, because he who practices restraint will have stored up no sustaining memories when famine inevitably comes. "We've been planning this a long time," Angel assured her. "I've climbed the tree a hundred times, maybe two hundred, mapping it, describing it to Barty, inch by inch, the trunk and its four divisions, all the major and minor limbs, the thickness of each, the degree of resilience, the angles and intersections, knots and fissures, all the branches down to the twigs. He's got it cold, Aunt Aggie, he's got it knocked. It's all math to him now." "Are you all right?" he asked as he opened the passenger's door and helped her into the car. He stepped to the front door, which was framed by curtained side lights. He drew one of the curtains aside and peered out. "I hope it was all right I let him in, Mr. Cain." Sparky had a capuchin's overbite, too. "He told me it was an emergency." Outside, he realized he hadn't paid for his juice and waffles. When he turned back to the coffee shop, he saw, through one of the windows, an associate of Salk's picking up the check from his table. WHILE THE SLATS of ash-gray light slowly lost their meager luster, and sable shadows metastasized in sinister

profusion, the sentinel silence remained unbroken between Junior Cain and the birthmarked man. Thus armored, he at last arrived in the city of Sacramento, an hour before dawn. Sacramento, which means "sacrament" in Italian and in Spanish, calls itself the Camellia Capital of the World, and holds a ten-day camellia festival in early March—already advertised on billboards now in mid-January. The camellia, shrub and flower, is named for G. J. Camellus, a Jesuit missionary who brought it from Asia to Europe in the eighteenth century. OF THE SEVEN NEWBORNS, none was fussing, too fresh to the world to realize how much was here to fear. Cupping Angel entirely in his big hands, smiling at her, he said, "Oh, no, Mrs. White, this looks like a healthy young lady to me. No medicine required." The terror he hid from her vanished with the recital of their vows. He knew from their first kiss as husband and wife that this was his destiny. What a great adventure they'd had together these past twenty-three years, one that Doc Savage might have envied. Lucky took him down into the mines to show him the gangues, the kinds of earth the ore was likely to occur in. A few miners were working at the end of a long level. Mustering all her hostess skills, Agnes gradually turned the conversation from disastrous explosions to Fourth of July fireworks, and then to reminiscences of summer evenings when she, Joey, Edom, and Jacob. "Tom, a couple minutes ago," Agnes said, "Celestina mentioned your . . . 'certain awareness.' Which is what exactly?" Lientery's work met the criteria of great art, about which Junior had learned in art-appreciation courses. It undermined his sense of reality, left him wary, filled him with angst and with loathing for the human condition, and made him wish he hadn't just eaten dinner. Junior couldn't see the lights of the nearest other houses. Either those structures were screened by trees or the neighbors weren't home. "Stop it, stop it!" Agnes, only ten years old, slender and shaking, but wild with righteousness, until now held in thrall by her own fear, by the memory of all the beatings that she herself has taken. She screams at their father and strikes him with a book she's brought from the house. The Bible. She strikes their father with the Bible, from which he's read to them every night of their lives. He drops the roses, tears the holy book out of Agnes's hands, and pitches it across the yard. He rakes up a handful of the scattered roses, intending to make his son resume this dinner of sin, but here comes Agnes once more, the Bible recovered, brandishing it at him, and now she says what all of them know to be true but what none of them has ever dared say, what even Agnes herself will never again dare to say after this day, not while the old man lives, but she dares to say it now, holding the Bible toward him, so he can see the gold-embossed cross upon the imitation-leather cover. "Murderer," Agnes says. "Murderer." And Edom knows that they're all as good as dead now, that their father will slaughter them right here, right this minute, in his rage. "Murderer," she says accusingly, behind the shield of the Bible, and she doesn't mean that he is killing Edom, but that he killed their mother, that they heard him in the night, three years before, heard the short but awful struggle, and know that what happened was no accident. Roses fall from his skinned and pierced hands, a flurry of petals yellow and petals red. He rises and takes a step toward Agnes, his dripping fists crimson with his blood and with Edom's. Agnes doesn't back away, but thrusts the book toward him, and scintillant sunlight caresses the cross. Instead of tearing the book out of her hands again, their father stalks away, into the house, surely to return with club or cleaver . . . yet they will see no more of him this day. Then Agnes—with tweezers for the thorns, with a basin full of warm water and a washcloth, with iodine and Neosporin and bandages—kneels beside him in the yard. Jacob, too, comes forth from the dark crawlspace under the porch, having watched in terror from behind the latticework skirt. He is shaking, crying, flushed with embarrassment because he didn't intervene, although he was wise to hide, for the disciplinary beating of one twin usually leads to the pointless beating of the other. Agnes gradually settles Jacob by involving him in the treatment of his brother's wounds, and to Edom she says, often thereafter, "I love your roses, Edom. I love your roses. God loves your roses, Edom." Overhead, agitated wings quiet to a soft flutter, and the shrieking crows grow silent. The air pools as still and heavy as the water in a hidden lagoon within a secret glade, in the perfect garden of the unfallen. . . . To prove himself, he read a little of Dickens when she requested it, a passage from *Great Expectations*. Then a passage from Twain. Edom and Jacob Isaacson were her older brothers, who lived in two small apartments above the four-car garage at the back of the property. On Tuesday, less than twenty-four hours after Naomi's funeral, Knacker, Hisscus, and Nork—representing the state and the county held preliminary meetings with Junior's lawyer and with the attorney for the grieving Hackachak clan. As before, the well-tailored trio was conciliatory, sensitive, and willing to reach an accommodation to prevent the filing of a wrongful-death suit. When he dared to look in the mirror above the sink, he expected to see a haggard face, sunken eyes, but the grim experience had left no visible mark. He quickly combed his hair. Indeed, he looked so fine that women would as usual caress him with their yearning gazes when he made his way back through the gallery. As one of the two paramedics hurried to the ambulance van and scrambled into the driver's seat, Agnes suffered another contraction so severe that for a tremulous moment, at the peak of the agony, she almost lost consciousness. Finally wimping out completely, Parkhurst left the room. The heavy door sighed softly shut, silencing the squeak of rubber-soled shoes, the swish of starched uniforms, and other noises made by the busy nurses in the corridor. He reached toward the dead man's closed hand, but he couldn't find the courage to touch it. He was afraid that if he pried open the stiff fingers, he would discover a quarter inside. Carrying him to the window, gazing up at the stars, the moon, she said, "I'll always read to you, Barty." There was a valuable lesson to be learned from the encounter with Renee Vivi: Many things in this life are not what they first appear to be. To Junior, however, the lesson was not worth learning if he had to live with the vivid memory of his humiliation. After a long time the door opened and several men came in. He could do nothing against them as they gagged him and bound his arms behind him. "Now you won't weave charms nor speak spells, young'un," said a broad, strong man with a furrowed face, "but you can nod your head well enough, right? They sent you here as a dowser. If you're a good dowser you'll feed well and sleep easy. Cinnabar, that's what you're to nod for. The King's wizard says it's still here somewhere about these old mines. And he wants it. So it's best

for us that we find it. Now I'll walk you out. It's like I'm the water finder and you're my wand, see? You lead on. And if you want to go this way or that way you dip your head, so. And when you know there's ore underfoot, you stamp on the place, so. Now that's the bargain, right? And if you play fair I will." Glancing at her in the rearview mirror, the driver said, "Pretty exhilarating, huh? Your first big show?"
