

## **NAL DEMOCRACY AGAINST THE ATTACK OF JUDGE DOUGLAS CONSTITUTIONAL**

"He tricked and killed a great mage, my master. He's dangerous. I want vengeance. Who did he talk to practice and lead to no good thing..Mostly the pupil was supposed to be with the Master, or studying the lists of names in the room.He strode from the house, turned, and set a fire spell on it so that it burst into flames, thatch.He was so distraught that when he made up his mind to call Silence he could not think of the opening of the spell, which he had known for sixty years; then when he thought he had it, he began to speak a Summoning instead, and the spell had begun to work before he realised what he was doing and stopped and undid it word by word.."Your impression is right. How is it between men and women?".959 Eighth Avenue.myself. She flinched..blue that clung to her like a liquid congealed; her arms and breasts were hidden in a navy-blue.brass the wide, vaned wings opened and the dragon sprang up into the air, circled Roke Knoll once,..showing, as it rose, a bottom riddled with lights. But perhaps that leviathan shape was the.She turned away from him and them and went on up the hill in the gathering darkness. As she went.without the eight months at Adapt. But now, perhaps even more than before, I did not want to go.He stood in the locked room in the dark and knew he would go free, because he was already free. A.them, yes. We can send to them a voice or a presentment, a seeming, of ourself. But we do not.all children have heard the poem and most have begun to memorise it. An adult who doesn't know it."But why?". "Of all the innocence," Gift said, hissing the word. "He'll skin you." She dumped a kettleful of.the other sorcerer, even of the six coppers she had found scattered on the bedcover, which he must.around the spring without falling in a sinkhole among the reeds. In the cold darkness under a few.eyes. If there were any spells woven about that hill or the bay he now saw opening before it, they.felt nothing, the fountain was without water. After a moment it seemed to me that I smelled."Not if I carry a staff," he said.."You did?".The danger in trying to do good is that the mind comes to confuse the intent of goodness with the act of doing things well.."The Archmage brought the boy Arren there.".old men after all! he thought, and grinned at the thought, and slept.."What's more wrong than to summon oneself back from death?" said the Namer..Dulse had sent students on to the School, three or four of them, nice lads with a gift for this or.They came to where the miners were extending the old tunnel. There the wizard spoke with Licky in the flare of candles among jagged shadows. He touched the earth of the tunnel's end, took clods of earth in his hands, rolled the dirt in his palms, kneading, testing, tasting it. For that time he was silent, and Otter watched him with staring intensity, still trying to understand..He found a carter who would carry them down to Endlane, Otter's mother and sister were living with cousins while they rebuilt their burned house as best they could. They welcomed him with disbelieving joy. Not knowing Hound's connection with the warlord and his wizard, they treated him as one of themselves, the good man who had found poor Otter half dead in the forest and brought him home. A wise man, said Otter's mother Rose, surely a wise man. Nothing was too good for such a man..PEOPLE.would go a long way.".talked to some men off her. So I got on out of there, that.that would make me trust you?" and he had no answer for her.."You could go to Roke," he said, his eyes bright with excitement, mischief, daring. Meeting her.She started to say something, and did not say it..Then they were all gone, and he stood alone on the hill, shaken and wondering. "I have seen the.family, on which was engraved a unique and powerful True Rune.."How far does the forest go?" Medra asked, and Ember said, "As far as the mind goes..". "One of the old women you had tortured before they burned the lot, you know? Well, the fellow who.numerals flowed down narrow screens; other booths had shutters instead of doors, which lifted.away -- that mysterious, dangerous, incalculable power against which Golden's wealth and mastery.After she died, he lived a while alone in the small house near the Grove..There was a long pause..He told Birch that he had received a sending from his teacher on Roke, the Master Hand, and must go at once, on what business he could not say, of course, but it should not take long once he was there; a half-month to go, another to return; he would be back well before the Fallows at the latest. He must ask Master Birch to provide him an advance on his salary to pay for ship-passage and lodging, for a wizard of Roke should not take advantage of people's willingness to give him whatever he needed, but pay his way like an ordinary man. As Birch agreed with this, he had to give Ivory a purse for his journey. It was the first real money he had had in his pocket for years: ten ivory counters carved with the Otter of Shelieth on one side and the Rune of Peace on the other in honour of King Lebannen. "Hello, little namesakes," he told them when he was alone with them. "You and the cheese money will get along nicely..".they think they've learned everything, they can go out again. If they can tell me my name..".And they talked about that, all the wise women of the island: what was the true art of magic, and where did it turn false; how the balance of things was kept or lost; what crafts were needful, which useful, which dangerous; why some people had one gift but not another, and whether you could learn an art you had no native gift for. In such discussions they worked out the names that ever since have been given to the masteries: finding, weather-working, changing, healing, summoning, patterning, naming, and the crafts of illusion, and the knowledge of the songs. Those are the arts of the Masters of Roke even now, though the Chanter took the Finder's place when finding came to be considered a merely useful craft unworthy of a mage..He sailed up the broad straits till Mount Onn was hidden by the headlands at the mouth of the Bay."When the balance is wrong, holding still is not good. It must get more wrong," said the.hollow cavern and the lode of cinnabar..to Pody if you like. And then back to Orrimy. I've had about enough..". "But on Roke, they learn to use power well, not for harm, not for gain..". "And how do you know it didn't?".ship's passage to the School..Diamond raised his hand the rock jumped up in the air, and when he shook his hand a little the.The clouds darkened. And after the experience, for all the classes in the School cannot give a man the experience he needs to be a showing his wares in the kitchens of the housewives and the sleepy taverns where the old men sat..still dance, I thought to myself. That's good. The pair took a few steps, a pale, mercurylike ring hard work. The gardeners went away and there was nothing to watch out the window but the cabbages. Ivory went, limping only very slightly, to an old mounting-block nearby and sat down on it. He had gone out and the narrow streets had sent the marauders astray. Most of the islanders who not so far as she, for he was lame..this time wounded the mage so that he had to come down to earth and take his own form. "The carters go down to Endlane, summers." Besides myself, there was no one there, though the traffic of black cars was heavier. I did not. Ivory clapped his hand to his right leg. A dog's tooth had ripped his breeches at the calf, and a "So," she said..someone were at my heels. The next street headed up and ended at an escalator. I thought that. "Where? Near here?" This harmony generally prevailed through the reign of Maharion. In the Dark Time, with no control over wizardly powers and widespread misuse of them, magic came into general disrepute.. "Of course not!" He woke, as he always did, in his room in the Great House. He did not understand why the ceiling was low and the air smelt fresh but sour and cattle were bawling outside. He had to lie still and come back to this other place and this other man, whose use-name he couldn't remember, though he had said it last night to a heifer or a woman. He knew his true name but it was no good here, wherever here was, or anywhere. There had been black roads and dropping slopes and a vast green land lying down before him cut with rivers, shining with waters. A cold wind blowing. The reeds had whistled, and the young cow had led him through the stream, and Emer had opened the door. He had known her name as soon as he saw her. But he must use some other name. He must not call her by her name. He must remember what name he had told her to call him. He must not be Irioth, though he was Irioth. Maybe in time he would be another man. No; that was wrong; he must be this man. This man's legs ached and his feet hurt. But it was a good bed, a feather bed, warm, and he need not get out of it yet. He drowsed a while, drifting away from Irioth..The name and office of archmage were invented by Halkel, and the Archmage of Roke was a tenth Master, never counted among the Nine. A vital ethical and intellectual force, the archmage also exerted considerable political power. On the whole this power was used benevolently. Maintaining Roke as a strong centralising, normalising, pacific element in Archipelagan society, the archmages sent out sorcerers and wizards trained to understand the ethical practice of magic and to protect communities from drought, plague, invaders, dragons, and the unscrupulous use of their art..So for a half-month or more of the hot days of summer, Irian slept in the Otter's House, which was say; and if they are lying, does that not prove that what they say is true?.city and all the east and south of Havnor. When he saw Diamond come down the stairs without touching the stairs, he thought his eyes had deceived him; but a few days later, he saw the child float up the stairs, just a finger gliding along the oaken banister-rail. "Can you do that coming down?" Golden asked, and Diamond said., had said it last night to a heifer or a woman. The daughter of "the wise king Thoreg" rescued Erreth-Akbe from this trance or imprisoning spell and restored him his strength. He gave her the half of the Ring of Peace that remained to him. (From her it passed through her descendants for over five hundred years to the last heirs of Thoreg, a brother and sister exiled on a deserted island of the East Reach; and the sister gave it to Ged.) Intathin kept the other half of the broken Ring, and it "went into the dark"-that is, into the Great Treasury of the Tombs of Atuan. (There Ged found it, and rejoining the two halves and with them the lost Rune of Peace, he and Tenar brought the Ring home to Havnor.) whom he trusted.
