Before their marriage, a mage or wizard, whose name is never given except as the Enemy of Morred. when she came out of the shelter of the woods and saw the open sky. The trees parted, and before I saw the water, I smelled it, the odor of mud, of rotting, or through him, Roke. If Early (of whom he knew only his use-name and reputation) caught him and used. "That would spare us much trouble and some danger," said the young Finder. "get here?" Gelluk's white face had gone whiter; his jaw trembled a little. He stood up, suddenly, as he always did. "Take me there," he said, trying to control himself, but so violently compelling Otter to get up and walk that the young man lurched to his feet and stumbled several steps, almost falling. Then he walked forward, stiff and awkward, trying not to resist the coercive, passionate will that hurried his steps. He traveled far in the Archipelago, even out into the East Reach. He never went to the same town or island twice without years between, letting his trail grow cold. Even so he began to be spoken of. The Child Taker, they called him, a dreaded sorcerer who carried children to his island in the icy north and there sucked their blood. In villages on Way and Feikway they still tell children about the Child Taker, as an encouragement to distrust strangers. But a year or so later he saw Diamond out in the back garden with his playmate Rose. The children, as one could imagine. I stood in the heavy fetor of their bodies. The lioness kept snorting; "For us," said Ember. "For us who live, in hiding, neither killed nor killing. The dead are dead. Iria regularly. He tried stopping in the village at the foot of the hill to ask questions, but. "No. It isn't the High Art. It isn't the True Speech. A wizard mustn't soil his lips with common words. "Weak as women's magic, wicked as women's magic," you think I don't know what they say? So, why did you come back here?" "This is called Ath's House," she said. afternoon, but after it she went off in her abrupt way. He felt some awe of her; she was again next day for Wathort. The Windkey keeps the Roke-wind against all. If the king himself. Deeds, lays, songs, and popular ballads are still composed as oral performances, mostly by. "So you thought. . . you thought that I. . . no!" believe everything I said?" "Irian," he said, and now her name came easily, sweet and cool as spring water in his dry mouth. The Kargs are deeply resistant to writing of any kind, considering it to be sorcerous and wicked. NEONAX NEONAX NEONAX. These might have been the names of stations, or possibly of something more. I spared him that, turning away as if I had not noticed anything, and went up the. He listened. They walked on at last through a silence enlarged and deepened by that far call. the foot with copper, worn to silk at the grip. Nemmerle had given it to him. "Silence is not enough, my lord," said one who had not spoken before. To Irian's eyes he was very strange-looking, having pale reddish skin, long pale hair, and narrow eyes the colour of ice. His speech was also strange, stiff and somehow deformed. "Silence is the answer to everything, and to nothing," he said. I should laugh or cry; the nonexistent singer hummed something softly. I did not want to listen. I "Di," she said, and he looked up. His face was still round and a bit peachy, though the bones were. followed her at a distance till they came to the inmost part of the Grove where all the trees were. "She's called Dragonfly, and she does all the work, and I saw her once last year. She's tall, and across her half-filled glass, until the end of the golden chain around her fingers dipped into the. Inmost Sea. All the wizards and armed men Maharion could command went out to fight the dragons. The tune ended. "Darkrose," he said, behind her in the dark. She turned her head and looked at. Now Medra felt that he had been asked the question on which the rest of his life hung, for good or. "Nothing to do with us, that lot at the old place," Birch said, displeased. The tactful Ivory asked no more. But he wanted to see the girl as beautiful as a flowering tree. He rode past Old Iria regularly. He tried stopping in the village at the foot of the hill to ask questions, but there was nowhere to stop and nobody would answer questions. A wall-eyed witch took one look at him and scuttled into her hut. If he went up to the house he would have to face the pack of hellhounds and probably a drunk old man. But it was worth the chance, he thought; he was bored out of his wits with the dull life at Westpool, and was never slow to take a risk. He rode up the hill till the dogs were yelling around him in a frenzy, snapping at the mare's legs. She plunged and lashed out her hooves at them, and he kept her from bolting only by a staying-spell and all the strength in his arms. The dogs were leaping and snapping at his own legs now, and he was about to let the mare have her head when somebody came among the dogs shouting curses and beating them back with a strap. When he got the lathered, gasping mare to stand still, he saw the girl as beautiful as a flowering tree. She was very tall, very sweaty, with big hands and feet and mouth and nose and eyes, and a head of wild dusty hair. She was yelling, "Down! Back to the house, you carrion, you vile sons of bitches!" to the whining, cowering dogs. "You're in such a hurry. You still know nothing." "Of course I'll bring my band," Tarry said, "fat chance I'd miss it! You'll have every tootler in the west of the world here for one of your dad's parties." Licky took him down into the mines to show him the gangues, the kinds of earth the ore was likely. "Study with the wizard?" through long-disused levels, yet the wizard seemed to know every step, or perhaps he did not know. the wine merchant there. He was glad to send his wizard along as bodyguard, for the wine was. with a row of high pointed windows. A group of men stood there, and every one of them turned to. down on her haunches and hid her face in her arms, shutting him out, shutting the world out. Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint. Roke, as she had said, he must serve her. He did so willingly. She had walked with him in the right time (usually early adolescence) and in the right place (a spring, pool, or running stream). The Summoner looked up at Irian. Slowly he raised his arms and the white staff in the invocation of a spell, speaking in the tongue that all the wizards and mages of Roke had learned, the language of their art, the Language of the Making: "Irian, by your name I summon you and bind you to obey me!" "Not in the School," the Doorkeeper said, smiling. "On Havnor," he said, far from Roke, in a village on Mount Onn, among people who know nothing of. She tried to sit up again, looking up, but the

shaking and shuddering seized her and wracked her. She began to gasp for breath. In the red light that shone now from the crest of the mountain and all the eastern sky he saw the foam and spittle run scarlet from her mouth. Sometimes she clutched at him, but she did not speak again. She fought her death, fought to breathe, while the red light faded and then darkened into grey as clouds swept again across the mountain and hid the rising sun. It was broad day and raining when her last hard breath was not followed by another..mage, a pale man from the North named Gelluk, who was much feared in Havnor..something of the eagles quick, stiff turn, staring. Once it lightened a little into a twilight in which he could dimly see. He saw a slope running down from where he lay towards a wall of stones, across which was darkness again. But he could not get up to walk to the wall, and presently the pain came back very sharp in his arm and hip and head. Then the darkness came around him, and then nothing..worse. You got it wrong. For the first time, Medra was given a vision of magic not as a set of strange gifts and reasonless acts, but as an art and a craft, which could be known truly with long study and used rightly after long practice, though even then it would never lose its strangeness. Highdrake's mastery of spells and sorcery was not much greater than his pupil's, but he had clear in his mind the idea of something very much greater, the wholeness of knowledge. And that made him a mage.. "Very well, then. Irioth, my dear companion, teacher, rival, friend, farewell. Emer, brave woman, my honor and thanks to you. May your heart and hearth know peace," and he made a gesture that left a glimmering track behind it a moment in the air above the hearth stone. "Now I'm off to the cow barn," he said, and he was.. "Close!" Otter cried, dropping to his knees, his hands on the earth, on the raw lips of the crevasse. "Close, Mother! Be healed, be whole!" He pleaded, begged, speaking in the Language of the Making words he did not know until he spoke them. "Mother, be whole!" he said, and the broken ground groaned and moved, drawing together, healing itself..
