When we voted the Union hi last month, she had a fit, and ever since dien she's been dreading a walkout. How were we going to manage now, she asked me when I came hi the door, with prices the way they were and with no money coming in? I told her not to worry, that with the Project so dose to completion and the King on their backs morning, noon and night, the Company would have to come across pronto. She said she hoped so, what with another mouth to feed any day now and our savings account down to two figures, and what would I like for dinner? baked fish or fried figs? Critical judgments are so complex (and take place in such a complicated context), the vocabulary of praise and blame available in English is so vague, so fluid, and so constantly shifting, and the physical space allowed is so small that critics welcome any way of expressing judgments that will be both precise and compact. If vivid be added thereunto, fine?what else is good style? Hence critics, whenever possible, express their judgments in figurative language. The walls were much too high to climb and they went all the way around. Being a clever man, Amos knew there were some situations in which it was a waste of wit to try and figure a way out.
