Critical judgments are so complex (and take place in such a complicated context), the vocabulary of praise and blame available in English is so vague, so fluid, and so constantly shifting, and the physical space allowed is so small that critics welcome any way of expressing judgments that will be both precise and compact. If vivid be added thereunto, fine?what else is good style? Hence critics, whenever possible, express their judgments in figurative language. Wit is a form of condensation (see Freud if you think this is my arbitrary fiat) just as parody is a form of criticism (see Dwight McDonald's Modern Library collection thereof)..The last tracks cut in. Further than that, some of the plants might have been able to copy certain genetic material if they encountered any. Take a look at that pipe behind you." Singh turned and saw a pipe about as thick as his arm. It was flexible, and had a swelling in it that continuously pulsed in expansion and contraction..Fallows took in the rest of the information from the screen. The changes that the computers had detected were tiny--the merest beginnings of a trend which, if it continued at the present rate, wouldn't approach anything serious for a month or more. With only another three months to go before the ship reached Chiron there was no cause for alarm since the rest of the pump-group had enough design margin to make up the difference even without the backup. But even so, there was little doubt that Merrick would insist on the primary's being stripped down to have its bearings reground, alignment rechecked, and rotor rebalanced again. They had been through that routine twice already in the three months that the main drive had been firing. That meant another week of working in near-zero g and klutzing around in heavy-duty protective suits on the wrong side of the stern radiation shield. "Bloody pump," Fallows muttered sourly..In your mother's study after she dies, you find an elaborate chart of her ancestors and your father's. You retrieve the program for it, punch it in, and idly watch a random sampling, back into time, first me female line, then the male ... a teacher of biology in Boston, a suffragette, a corn merchant, a singer, a Dutch fanner in New York, a British sailor, a German musician. "You feel you can trust me?" She lowered her eyes and tried to look wicked and temptress-like, but it was not in the nature of her kind of beauty to do so. The grey man peered across the unicorn's shoulder, and in the piece of glass he saw not his own reflection but the face of a young woman. "I'm afraid," she said cheerfully, "that you shall never be able to pick up the mirror unless the unicorn lets you, for it was placed here by a wizard so great and so old and so terrible that you and I need not worry about him." She almost didn't bother to answer, but curiosity got the best of her. Aren't you part of the U. S. Government yourself? I gave her a suspicious frown, got up, and walked over to the bathroom door. I turned around, crossed my arms, and leaned against the doorframe. "Well?" "It was an intolerable situation for her. She went catatonic to escape." Maurice was a philatelist. He specialized in postwar Germany-locals and zones, things like that. This is not mysterious. We see an analogy on the social plane. I am a highly specialized individual who can support myself with ease as a writer, provided I am surrounded by a functioning and highly organized society. Place me on a desert island and I shall quickly perish since I don't know the first thing about the simplest requirements for self-support. all. Dear heart, Brother Hart, Come at my crying. She ran her hand lovingly over the gossamer wall, the wall that had provided her and her fellow colonists and their children protection from the cold and the thin air for so long.
