Some people of great innate and trained power are able to find out the true name of another, or even to have it come to them unsought. Since such knowledge can be betrayed or misused, it is immensely dangerous. Ordinary people--and dragons--keep their true name secret; wizards hide and defend theirs with spells. Morred could not even begin to fight his Enemy until he saw his Enemy's name written in the dust by the falling rain. Ged could force the dragon Yevaud to obey him, having by both wizardry and scholarship discovered Yevaud's true name under centuries of false ones.. find him here. He was not here to find. Her father's ancestors had owned a wide, rich domain on the wide, rich island of Way. Claiming no title or court privilege in the days of the kings, through all the dark years after Maharion fell they held their land and people with firm hands, putting their gains back into the land, upholding some sort of justice, and fighting off petty tyrants. As order and peace returned to the Archipelago under the sway of the wise men of Roke, for a while yet the family and their farms and villages prospered. That prosperity and the beauty of the meadows and upland pastures and oak-crowned hills made the domain a byword, so that people said, "as fat as a cow of Iria", or, "as lucky as an Irian". The masters and many tenants of the domain added its name to their own, calling themselves Irian. But though the farmers and shepherds went on from season to season and year to year and generation to generation as solid and steady as the oaks, the family that owned the land altered with time and chance..
