It was impossible for Barry, sitting so nearby and having no one to talk to himself, to avoid eavesdropping on their conversation, which concerned (no doubt as a rebuke to his ignorance) Ireina Khokolovna's latest superb release from Deutsche Grammophon. She was at her best in Schumann, her Wolf was comme ci, comme fa. Even so, Khokolovna's Wolf was miles ahead of Adriana Motta's, or even Gwyneth Batterham's, who, for all her real intelligence, was developing a distinct wobble in her upper register. Amos and Jack climbed long and hard through the evening. When darkness fell, at first they thought they would have to stop, but the clear stars made a mist over the jagged rocks, and a little later the moon rose. After that it was much easier going. Shortly the wind began. First a breeze merely tugged at their collars. Then rougher gusts began to nip their fingers. At last buffets of wind flattened them against the rock one moment, then tried to jerk them loose the next. The rope was very useful indeed, and neither one complained. They simply went on climbing, steadily through the hours. Once Jack paused a moment to look back over his shoulder at the silver sea and said something which Amos couldn't hear..the direction of the couple chained together on the blue settee..He watched the disaster unfold before his eyes, silent except for the rhythmic beat of the alarm bell in his ears. The error is that all proofs must be of the "hard" kind, i.e., cut-and-dried and susceptible of presentation in syllogistic form. An acquaintance with the modern philosophy of science would disabuse people of this notion; even a surprising amount of scientific proof is not of this kind. As philosophers since Plato have been pointing out, aesthetic and moral matters are usually not susceptible of such "hard" proof..pointed to the trunk. From it came a low, muggy sound: Ulmphf..
