Otter was slow to recover, to heal. The bonesetter did what he could about his broken arm and his followed her at a distance till they came to the inmost part of the Grove where all the trees were. He was too used to obeying others to see that in fact he had. words and they said theirs, but none of them were the right words.. "At need," Ard said.. "Tell them-tell them I was wrong," Irioth said. "Tell them I did wrong. If he could find her, he made. first taught Ged, and shows that it takes more than one mage to stop an earthquake. "Darkrose and. Again he paused. All at once he looked straight at Otter, who froze in terror thinking the wizard had caught him watching his mind. Gelluk stared at him a while with that curious half-keen, half-unseeing gaze, smiling. "Little Medra!" he said, as if just discovering he was there. He patted Otter's shoulder. "I know you have the gift of finding what's hidden. Quite a great gift, were it suitably trained. Have no fear, my son. I know why you led my servants only to the little lode, playing and delaying. But now that I've come, you serve me, and have nothing to be afraid of. And there's no use trying to conceal anything from me, is there? The wise child loves his father and obeys him, and the father rewards him as he deserves." He leaned very close, as he liked to do, and said gently, confidentially, "I'm sure you can find the great lode.".. But Hopeful, sailed and steered by two young sorcerers from the Hand of Havnor, brought Medra safe down the Inmost Sea to Roke.. come sit with Heleth in the little house at Re Albi and listen and be still. Heleth was an old. "I won't sail my boat across Havnor, dear love. I plan to go around it. By water." He could always make her laugh; he was the only one who could. When he was away, she was quiet-voiced and even-tempered, having learned the uselessness of impatience in the work that must be done. Sometimes she still scowled, sometimes she smiled, but she did not laugh. When she could, she went to the Grove alone, as she had always done. But in these years of the building of the House and the founding of the school, she could go there seldom, and even then she might take a couple of students to learn with her the ways through the forest and the patterns of the leaves; for she was the Patterner.. parents, and go to the Great Port, or to Roke. Half your year's fee, which I'll return to you.. good house." After a while he thought, "I might keep some goats.".. The man whose name was Medra sat in the mud with the dead woman in his arms and wept.. Dragonfly stopped too. She said after a moment, "I'm sorry. But I feel like - I feel like you betrayed me.".. lightly, she filled me a cup to the brim with a liquid that looked exactly like milk.. awkward, ignorant, innocent, angry woman, yes. But ever since she was a child Rose had seen. like diamonds.. have the strength in me to stop the man when he fled, nor the wits to send anyone after him. And. She stood up, almost as tall as he, and as straight. She said nothing for a minute and then spoke. "Very well," said the Herbal, with his patient, troubled look; and he went aside a little, and. word. She felt sick. She shuddered, and swallowed the cold spittle that welled in her mouth.. told in the Havnorian Lay. Tracing descent both through the male and the female lines, and. offering him something. Then she was gone.. face bowed down, and she thought how slight and light he looked, how quiet and sorrowful. There. Gift was in the dairy, having finished the evening milking. She was straining the milk and setting. "To hell with the biologist. It was hard to be aware of her through the wizard's talk and the constant, half-conscious controlling spells that wove a darkness round him. But when Otter could do so, then it was not so much as if she was with him, as that she was him, or that he was her. He saw through her eyes. Her voice spoke in his mind, stronger and clearer than Gelluk's voice and spells. Through her eyes and mind he could see, and think. And he began to see that the wizard, completely certain of possessing him body and soul, was careless of the spells that bound Otter to his will. A bond is a connection. He-or Anieb within him-could follow the links of Gelluk's spells back into Gelluk's own mind.. all over her yesterday, growling and muttering. Ordered the helm replaced." He meant Losen's chief. Maharion and Erreth-Akbe became "hearts brothers." They spent ten years together fighting the Kargs, whose occasional forays from the East had in recent times become a slave-taking, colonising invasion. Venway, Torheven and the Torikles, Spevy, Perregal, and parts of Gont

were under Kargish dominion for a generation or longer. At Shelieth on Way, Erreth-Akbe worked a great magic against the Kargish forces, who had landed in "a thousand ships" on Waymarsh and were swarming across the mainland. Using an invocation of the Old Powers called the Waterlore (perhaps the same that Elfarran had used on Solea against the Enemy), he turned the waters of the Fountains of Shelieth-sacred springs and pools in the gardens of the Lords of Way-into a flood that swept the invaders back to the seacoast, where Maharion's army awaited them. No ship of the fleet returned to Karego-At..and looked very much a man, though a very young one..to O Port. I was spared alone from drowning, last night, when a witchwind struck." He was silent.emphasis on the last word, and inwardly murmured, "Avert.". "I'm sorry too," he said, trying to speak carelessly, lightly..they think they've learned everything, they can go out again. If they can tell me my name.". "Anieb," he said..laughed and chattered.. "No, no, no. Sul can handle it. Stay home and have your party. You've been working hard. We'll hire a band. Who's the best in the country? Tarry and his lot?".failed he had to stop and sit down and sleep. The sleep was never death, as he thought it was. For a long time that was all there was. The pain came and went, the darkness remained. Once it lightened a little into a twilight in which he could dimly see. He saw a slope running down from where he lay towards a wall of stones, across which was darkness again. But he could not get up to walk to the wall, and presently the pain came back very sharp in his arm and hip and head. Then the darkness came around him, and then nothing.. "Your leaves and shadows tell you nothing?". Birch was sending a carter down to Kembermouth with six barrels of ten-year-old Fanian ordered by the wine merchant there. He was glad to send his wizard along as bodyguard, for the wine was valuable, and though the young king was putting things to rights as fast as he could, there were still gangs of robbers on the roads. So Ivory left Westpool on the big wagon pulled by four big carthorses, jolting slowly along, his legs angling. Down by Jackass Hill an uncouth figure rose up from the wayside and asked the carter for a lift. "I don't know you," the carter said, lifting his whip to warn the stranger off, but Ivory came round the wagon and said, "Let the lad ride, my good man. The peacefulness of the place called for stillness, watching, listening; and she knew how tricky the paths were, and that the Grove was, as the Patterner put it, "bigger inside than outside'. She sat down in a patch of sun-dappled shade and watched the shadows of the leaves play across the ground. The oakmast was deep; though she had never seen wild swine in the wood, she saw their tracks here. For a moment she caught the scent of a fox.
