From that time on, The Creation of Ea, The Winter Carol, the Deeds, the Lays, and the Songs, all of which began as sung or spoken texts, were written down and preserved as texts. They continue to exist in both forms. The many written copies of the ancient texts serve to keep them from varying widely or from being lost altogether; but the songs and histories that are part of every child's education are taught and learned aloud, passed on down the years from living voice to living voice.. Six to seven hundred years ago a sky-god religion began to spread across the islands, a development of the worship of the Twin Gods Atwah and Wuluah, originally heroes of a desert saga from Hur-at-Hur. A Sky Father was added as head of the pantheon, and a priestly caste developed to lead the rites. Without suppressing the worship of the Old Powers, the priests of the Twin Gods and the Sky Father began to professionalise religion, managing the rituals and festivals, building increasingly costly temples, and controlling public ceremonies such as marriages, funerals, and the installation of officials.. A man of power had come to heal the cattle, another man of power. But a sorcerer, Alder had said. Not a wizard, not a mage. Only a curer, a cattle healer. I do not need to fear him. I do not need to fear his power. I do not need his power. I must see him, to be sure, to be certain. If he does what I do here there is no harm. We can work together. If I do what he does here. If he uses only sorcery and means no harm. As I do. He came up on deck again. While Erreth-Akbe was in Karego-At (which may have been a period of years), the depredations of the dragons increased. The Inward Isles were troubled by refugees fleeing the western lands and by interruptions to shipping and trade, since the dragons had taken to setting fire to boats that went west of Hosk, and harried ships even in the Inmost Sea. All the wizards and armed men Maharion could command went out to fight the dragons, and he went with them himself four times; but swords and arrows were little use against armored, fire-spouting, flying enemies. Paln was "a plain of charcoal," and villages and towns in the west of Havnor had been burnt to the ground.
